

Rustic 18th Century Stool

Inventory Number :190-114

Size: 9 7/8 ins wide, 9 1/2 ins deep and 13 1/2 ins high

A wonderful stool with extraordinary presence and character. The four chamfered legs through mortised into the seat which shows serious evidence that the stool was used as a work table. Three iron mending plates hold the piece together and were clearly added by a local blacksmith.

The legs ash and the seat probably elm, and all of fabulous color and patina.

English, c. 1750-1800
